SUMMARY

An aspiring **MERN stack developer** having expertise in various JavaScript libraries and frameworks with strong communication and time management skills. Passionate about building scalable and dynamic web applications and eager to contribute to real-world projects in a collaborative team environment.

PROJECTS

FOREVER - An Online Store   **Live** | **Code**

- I built a full-stack eCommerce website using the MERN stack, implementing key features like product filtering, cart, and authentication as well as authorization.
- A MERN stack project using React Query for efficient server side state management and optimized data fetching.

STUDY NOTION - An EdTech Platform   **Live** | **Code**

- An educational platform providing Admins, Students and Instructors to use it for growing business, learning new technologies and teaching to improve their skills respectively.
- A MERN stack project which helps users experiencing easy to use user interface.Other techs like Context API, Redux, Axios, React-Routing, JWT, Bcrypt, Cloudinary, Mongoose are also used.

FITNESS CLUB - A Gym Portal   **Live** | **Code**

- A fully responsive, eye-catching gym website's UI created using React and Framer motion.
- Used Context API for seamless data flow and optimised state management.
